SimplyFPL

# The cleaner, faster FPL companion.

A modern Fantasy Premier League tool — live rank, live leagues, price predictions and transfer planning. Built for the 11 million FPL managers who deserve something better.

simplyfpl.com · Confidential — for discussion only

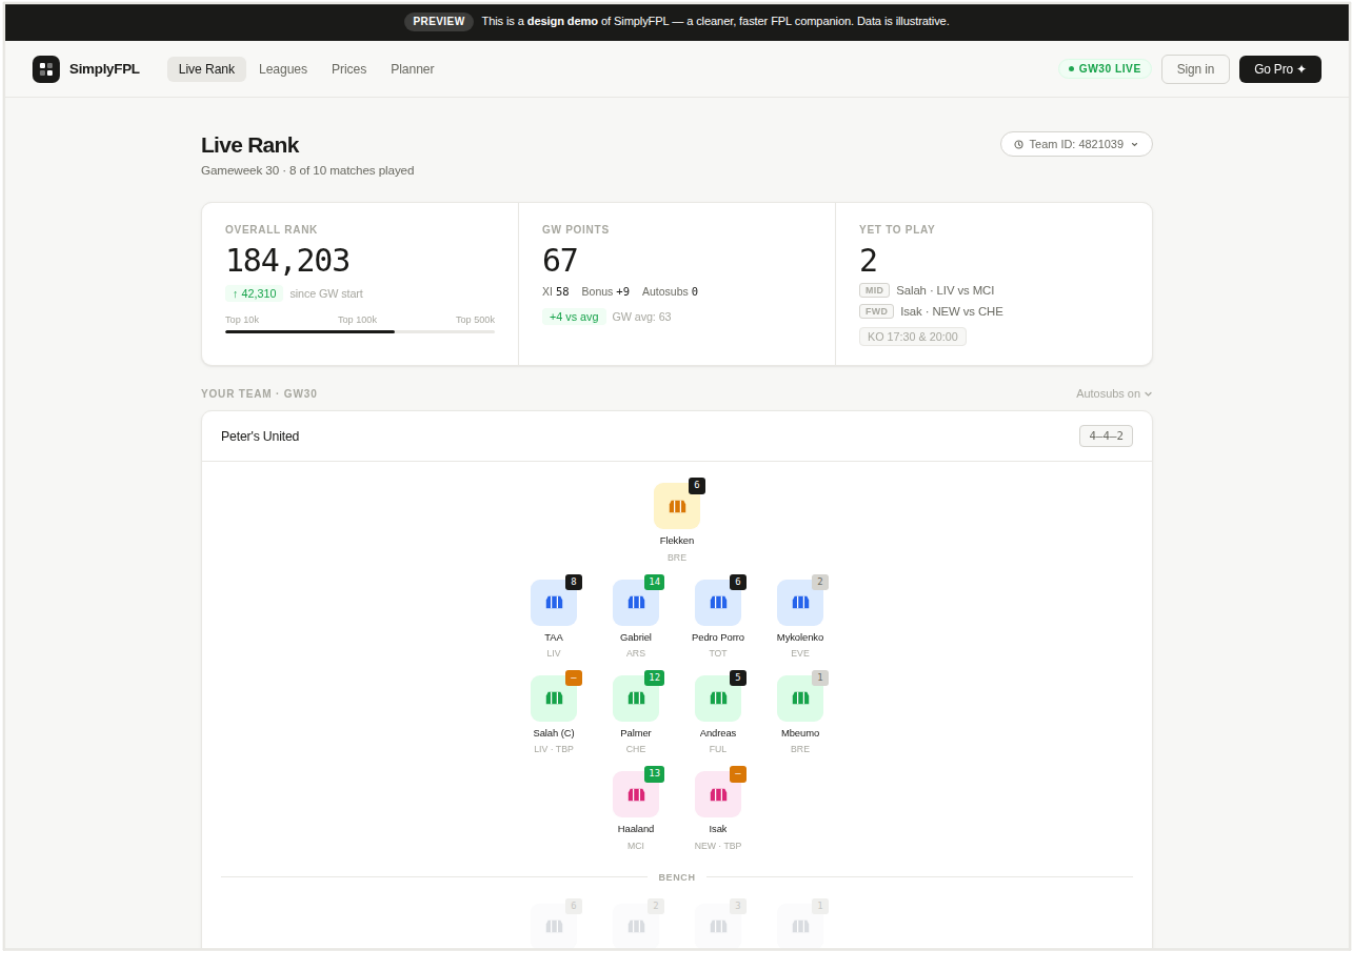

THE OPPORTUNITY

## Fantasy Premier League is massive — and underserved.

livefpl.net gets millions of visits per week but has become cluttered, slow and ad-heavy. FPL tools spread virally in the community when they are genuinely better. We have a head start: a combined audience of 46,000 followers (40k YouTube + 6k Twitter) to launch to, before a single line of marketing spend.

| FPL MANAGERS | MARKET GAP | OUR AUDIENCE | TARGET LAUNCH |
|---|---|---|---|
| 11M+ | Millions weekly visits to competitors | 46k | Aug 2026 before GW1 |

THE PRODUCT · LIVE DEMO SCREENS

Live Rank — real-time overall rank, GW points breakdown, team pitch, mini-league and price change preview

WHAT WE'RE BUILDING · MVP FEATURE SET

## Four tools. Clean. Fast. Mobile-first.

### Live Rank

FREE

- Enter your FPL team ID — see real-time overall rank as matches happen
- Points breakdown: starting XI, live bonus points, auto-substitutions
- Rank with and without autosubs — official site takes hours; we show it instantly
- Visual team pitch with position-coloured shirts and live point badges
- "Yet to play" tracker showing remaining players and kick-off times

The #1 reason people visit livefpl.net. Our version is faster and cleaner.

### Live Mini-Leagues

FREE

- Track any classic or H2H league with live standings during gameweeks
- Every manager's score, players remaining, overall rank and active chip
- Add multiple leagues — work, friends, public
- Your row highlighted at a glance

People obsessively check friend leagues on match days. High return-visit feature.

## Price Change Predictor

FREE

- Daily predictions for which players will rise or fall in price
- Based on net transfer activity — the same data FPL uses internally
- Probability percentage + visual bar for each player
- Filter by position: GK / DEF / MID / FWD

People check this every single day. Strong habit-forming, high daily active usage.

## Transfer Planner

PRO ✦

- Plan transfers and chip strategy across multiple upcoming gameweeks
- Fixture Difficulty Rating (FDR) colour grid per player per gameweek
- Double gameweek and blank gameweek visibility at a glance
- Save and revisit your plan before the deadline

Premium feature — shown with Pro upsell. Justifies the subscription on its own.

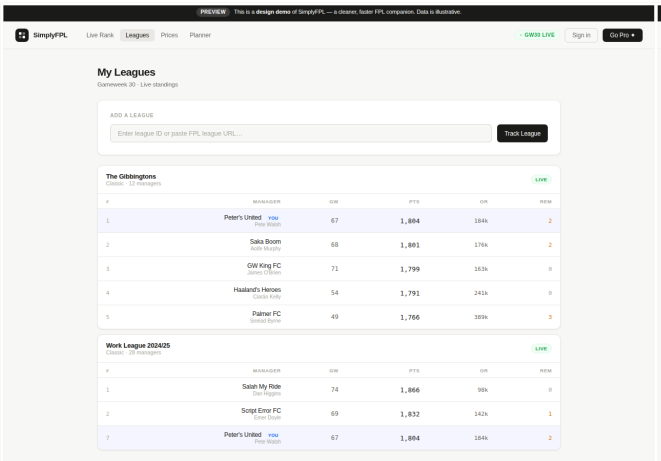

## Push Notifications

PRO ✦

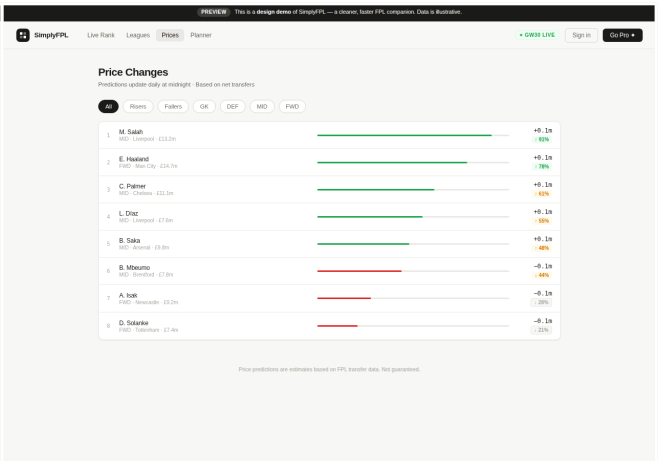

- Real-time alerts: rank change, bonus point swing, autosub triggered
- Captain hauling or blanking notifications during live gameweeks
- Price change confirmed alerts (daily)
- Mobile only — genuinely not available on livefpl.net

The strongest Pro differentiator. Nobody else does this well on mobile.

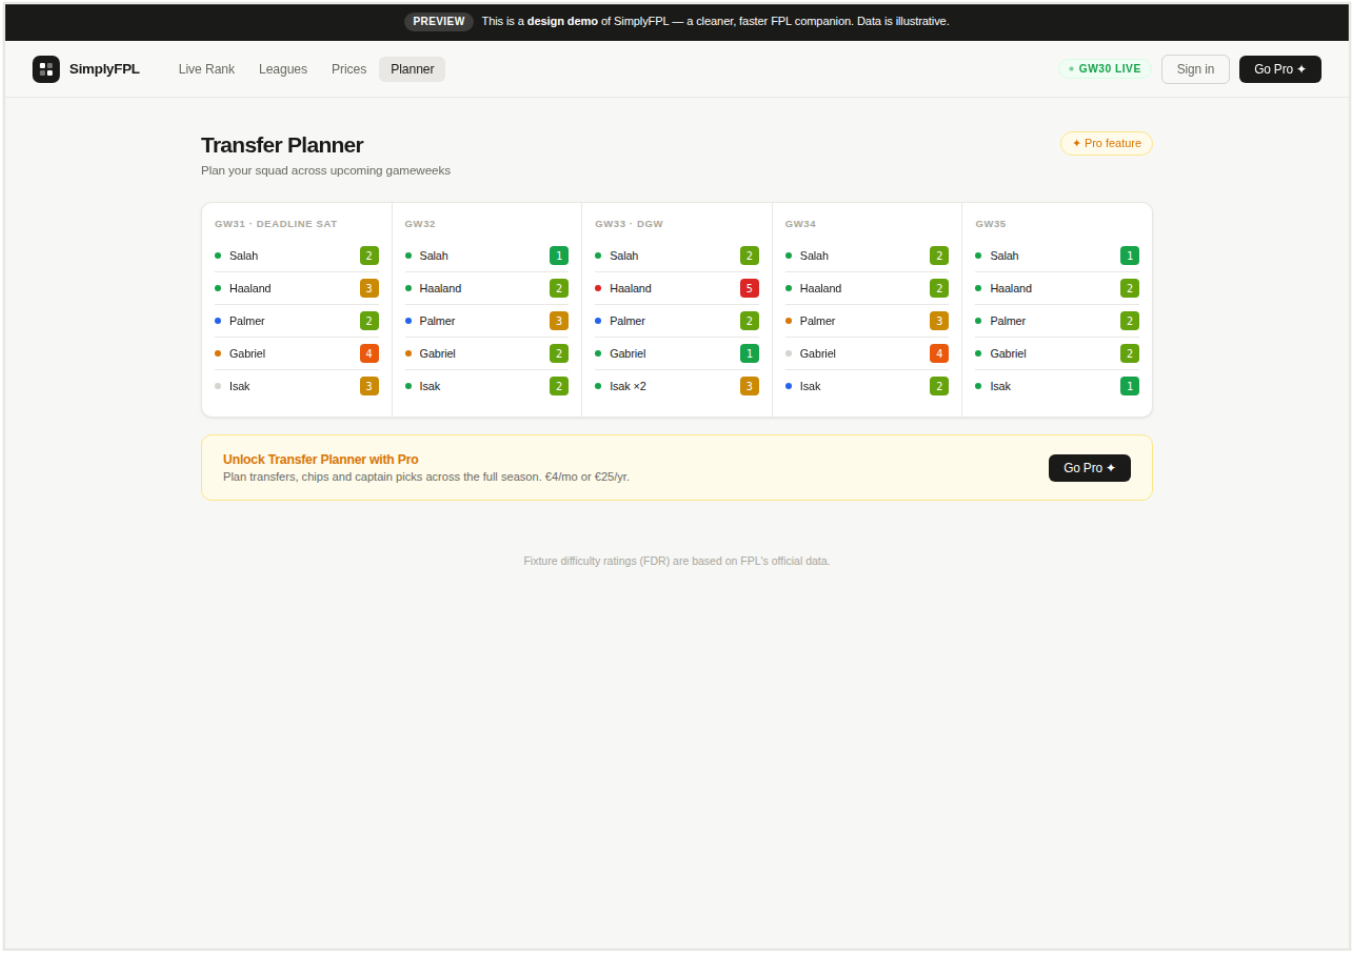

MORE DEMO SCREENS

Live Leagues — all your leagues in one place

Price Changes — daily predictions with position filter

Transfer Planner (Pro) — fixture difficulty grid across 5 gameweeks

MONETISATION

## Freemium. Free tier drives growth. Pro converts the obsessives.

| TIER | PRICE | WHAT YOU GET |
|---|---|---|
| **Free** | **€0** | Live rank · Live leagues · Price changes · Web ads |
| **Supporter** | **€2/mo** | Ad-free · Supporter badge |
| **Pro ✦** | **€4/mo**<br>**€25/yr** | Push notifications · Transfer planner · EO tracker · Ad-free |

At 11 million FPL managers globally, even 0.1% conversion to Pro = ~€25k/year. With our 46k combined audience as a launch platform, plus organic sharing in FPL communities (Reddit r/FantasyPL has 1.4M members), 500–1,000 paying users in Year 1 is a realistic target. The annual plan at a discount front-loads cash and cuts churn significantly.

---

ROLES & RESPONSIBILITIES

## Clear split. No overlap.

| Pete — Technical | Marketing Partner — Growth |
|---|---|

| | |
|---|---|
| · Full-stack build (web + mobile app) · FPL API integration & caching layer · Push notification system · Pro subscription + Stripe payments · Ongoing maintenance & new features | · Twitter, Reddit and YouTube community growth · FPL content & social media posting · User feedback & feature prioritisation · Partnerships and sponsorship outreach · Beta tester recruitment before launch |

TIMELINE TO LAUNCH

## Launch before GW1 — August 2026.

| PHASE | WHEN | DELIVERABLE |
|---|---|---|
| **1 · Foundation** | Now → Apr 2026 | Domain live, Cloudflare proxy, FPL API wired up |
| **2 · MVP Build** | Apr → Jun 2026 | Live rank + leagues + prices on web and mobile app |
| **3 · Beta** | Jun → Jul 2026 | Closed beta with FPL community, iterate on feedback |
| **4 · Launch** | Aug 2026 | Public launch before GW1, Pro tier and push notifications live |
| **5 · Growth** | Season 26/27 | Planner, EO tracker, expand features based on usage data |

TECH STACK (FOR REFERENCE)

| | |
|---|---|
| Web app | `Next.js` |
| Mobile app | `Expo (React Native — iOS + Android)` |
| Backend / API proxy | `Cloudflare Workers + KV (edge-cached, global)` |
| Auth + database | `Supabase (free tier, Postgres)` |
| Payments | `Stripe (web) — no App Store cut` |
| Push notifications | `Expo Push API` |
| Data source | `FPL Public API — free, no licence required` |
